

HANDOUT #2: LEARNING CHECK - ABBIE

Abbie has just turned three years old. She runs up and hugs peers at childcare, as well as her parents, older brother, and cousins. At the grocery store, the clerk is able to understand her request for a sucker.

Which of the following skills should her parents see emerging as she moves through her third year? Check all that apply.

- ☐ Abbie and her brother play games on the iPad and she is able to wait for her turn.
- ☐ Abbie introduces her mom to her friend, Sam, when her mom picks her up from child care.
- ☐ Every day when Abbie's dad drops her off at child care, she clings to him and cries as he tries to leave.
- ☐ Abbie and her mom run into an old friend of the family, and Abbie proudly tells her she is three years old.

Notes:
